

INSTRUCTIONS: Complete all applicable sections of this questionnaire as thoroughly as possible. Feel free to add an attachment or provide the requested information in a separate document if additional space is needed. The purpose of this questionnaire is to collect the initial information required to assess your eligibility and the best strategy for your case. Additional information and documentary evidence may be requested throughout the process of preparing your NIW petition.

Current Employment: Provide the following details for your current employment (or note if unemployed currently).

Employer:	
Job Title:	
Start Date (MM/DD/YY):	
Annual Base Salary (Specify Currency Type):	
Job Description:	

Employment History: List all professional experience prior to your current employment.

Employer	Job Title	Dates of Employment	Annual Salary (Specify Currency)

Education: List all degrees and other academic credentials.

Type of Degree	Field of Study	Degree Granting Institution	Year Awarded

Licenses & Other Certifications:

Type of License or Certification	Granting Authority	Validity Period

Area of Endeavor:

Briefly describe your specific area of focus and expertise. The legal framework for the NIW refers to this as the “area of endeavor.” The endeavor should be a niche specialty within your general discipline or occupational field, and the projects and other accomplishments listed in this questionnaire should all relate to the same area of expertise. With this context in mind, please summarize the focus of your work and future goals and the specific knowledge, skills, and achievements that distinguish you from others in the field.

Record of Success & Achievement:

Elaborate on your most significant contributions and demonstrated expertise. Describe in detail specific projects (previous or ongoing) and achievements that distinguish you from others in the field. These examples should demonstrate how your skills and expertise have advanced your area of endeavor (or show clear potential to do so) in a way that benefits the U.S. beyond the interests of one organization or employer.

Project 1:

Associated company or organization (if any):	
Government funding, grants, or other sponsorship of this work (if any):	
Goals of this project (what problem or issue did your work address?):	
Methods and techniques used in this project (focus on unique, innovative, and proprietary solutions or novel research and explain their significance):	
Successful outcomes and impact of this project (note any quantifiable results and continuing use, influence, or application of your work by others):	
Actual or prospective influence on the field (how does this project advance the field overall, beyond one company or organization?):	
Benefits to the United States or globally (focus on real or potential positive economic effects, societal welfare, job creation, cultural enrichment, or other national or global interests):	

Project 2:

Associated company or organization (if any):	
Government funding, grants, or other sponsorship of this work (if any):	
Goals of this project (what problem or issue did your work address?):	
Methods and techniques used in this project (focus on unique, innovative, and proprietary solutions or novel research and explain their significance):	
Successful outcomes and impact of this project (note any quantifiable results and continuing use, influence, or application of your work by others):	
Actual or prospective influence on the field (how does this project advance the field overall, beyond one company or organization?):	
Benefits to the United States or globally (focus on real or potential positive economic effects, societal welfare, job creation, cultural enrichment, or other national or global interests):	

Project 3:

Associated company or organization (if any):	
Government funding, grants, or other sponsorship of this work (if any):	
Goals of this project (what problem or issue did your work address?):	
Methods and techniques used in this project (focus on unique, innovative, and proprietary solutions or novel research and explain their significance):	
Successful outcomes and impact of this project (note any quantifiable results and continuing use, influence, or application of your work by others):	
Actual or prospective influence on the field (how does this project advance the field overall, beyond one company or organization?):	
Benefits to the United States or globally (focus on real or potential positive economic effects, societal welfare, job creation, cultural enrichment, or other national or global interests):	

Project 4:

Associated company or organization (if any):	
Government funding, grants, or other sponsorship of this work (if any):	
Goals of this project (what problem or issue did your work address?):	
Methods and techniques used in this project (focus on unique, innovative, and proprietary solutions or novel research and explain their significance):	
Successful outcomes and impact of this project (note any quantifiable results and continuing use, influence, or application of your work by others):	
Actual or prospective influence on the field (how does this project advance the field overall, beyond one company or organization?):	
Benefits to the United States or globally (focus on real or potential positive economic effects, societal welfare, job creation, cultural enrichment, or other national or global interests):	

Evidence of Recognition & Expertise in Endeavor:

Complete all applicable sections below. All examples should relate to your specific endeavor or area of expertise. This information may also be shared in a separate document, if preferred or if more space is needed.

Authored Publications. List any scholarly articles, books, or other published materials you have authored. [Include links to the published work and any sources showing citations and usage metrics, if available.](#)

Link to Google Scholar Profile (if any): _____

Title of Published Work	Publisher/Publication	Date Published

Media. List any articles, interviews, or other media featuring you or your work. [Include links, if available online.](#)

Title of Media Publication	Subject of Media Coverage

Memberships. List any professional memberships (past or present) that are only available by invitation or acceptance based on a certain level of expertise or other qualifying criteria. [Include links to organization website and any membership information available online.](#)

Name of Organization or Professional Association	Type of Membership	Criteria for Membership	Years of Membership

Awards. List any awards or other honors you have received based on your work, expertise, or other achievements in the field. [Include links to any announcements or other information about the award available online.](#)

Title of Award or Honor	Organization that Granted the Award	Year Awarded	Summary of Award (Reason and Significance)

Patents. List any patent applications in which you are named as an inventor. [Include application link, if available.](#)

Title of Patent	Application Number and Status

Presentation of Work. List any conferences, symposiums, seminars, or other events that have invited you to present or showcase your work. [Include links to any evidence of your participation and information about the event or sponsoring organization, if available.](#)

Sponsoring Organization or Host of Event	Name and Year of Event	Topic of Presentation or Work Showcased

Judging the Work of Others. List any invitations or participation as a judge of others in your field. Examples include: peer reviews or serving as an editor for scholarly publications; judging industry competitions; committees responsible for selecting event speakers; participating in the selection process for membership or admission in an area relevant to your endeavor; etc. [Include links to any evidence of your participation in this regard and any other information about the sponsoring organization, event, or publication and its judging process, if available.](#)

Name of Organization or Publication	Activity – Describe what was judged, your role in the process, and why you were selected as a judge or reviewer	Year

Progress & Recognition in the Field. The following is a list of other evidence that may be used to demonstrate progress toward achiveing the endeavor and interest in your work. Select all that apply.

- ☐ Investments from U.S. investors (e.g., venture capital firms, angel investors, or start-up accelerators) to develop and advance the progress of your work in the field.
- ☐ Grants, funding, or other indications of relevant non-monetary support (e.g., use of facilities, equipment, or other accommodations) supporting your work.
- ☐ Funding, sponsorship, or other support from federal, state, or local government entities with authority over the field of endeavor.
- ☐ Inquiries from government organizations, industry authorities, or controlling bodies seeking your expertise or input on critical projects, policy initiatives, regulatory or industry standards, or other efforts of national or global importance.
- ☐ Contracts, licenses, or other evidence of individuals, organizations, or other entities using your products, solutions, projects, research, or other contributions to advance, improve, or support their own work or interests in the field.
- ☐ Independent and objective metrics, citations, or other measurable results showing the use and impact of your patented technologies, research publications, or other achievements and contributions in the field.
- ☐ Past or present job offers or communications from headhunters, recruiters, or organizations showing interest and demand for your skill set and expertise.
- ☐ Communications from other experts, institutions, organizations, or other entities seeking your expertise, feedback, participation, or assistance in the application of your work or other projects and initiatives related in the area of your endeavor.
- ☐ Communications from potential clients, customers, or other parties interested in the use of your products or services.

Additional Information. Use the space below to elaborate on any applicable examples in the list above and provide any additional information or potential evidence not listed elsewhere in this questionnaire.

Potential References:

Letters from other experts in the field are typically used as supporting evidence for NIW filings. We will help draft these letters and explain this process further once we begin working on your case. For now, please provide a list of suggested references that may be willing to sign letters detailing your work and achievements in the field. Please include at least 1-2 independent references outside of your current organization that have not collaborated on or supervised your work. [Include links to LinkedIn profile, CV, or other bio for each person.](#)

Name of Reference	Job Title & Employer	Relationship to You (if any) and Knowledge of Your Work
